

Addendum by the Green Group

City of Edinburgh Council

2 May 2019

Item 8.3 – 2050 Edinburgh City Vision

Add to recommendations:

- “1.2 Notes the four broad approaches identified in the first round of public engagement, including ‘Edinburgh becoming carbon neutral, eradicating poverty, re-imagining public space, and making Edinburgh more caring’ and agrees these should be fully reflected in the final City Vision;
- 1.3 Agrees that the findings from analysis of the second round of public engagement are reported to Corporate Policy & Strategy Committee at the earliest opportunity before the draft City Vision is finalised for recommendation to Council for approval.”
