City of Edinburgh Council

30 May 2019

Item 8.6 – Local Government Benchmarking Framework 2017/18 – Edinburgh Overview

Council welcomes the report.

Council notes with concern that the report shows satisfaction with refuse and cleansing is declining, street cleanliness scores are reducing and there is a deterioration in the condition of A B and C class roads.

Council is concerned that recycling rates are not meeting targets, that non-emergency repairs to housing are taking too long to resolve and the percentage of housing meeting the Scottish Housing Quality Standard is poor.

Council is further concerned that staff sickness levels are increasing and are at unacceptable levels.

Council therefore calls for the production of a consolidated action plan to address these issues with timescales and targets to reverse the decline in these areas of the council's operation.
